

Having **17+ Years'** of relevant experience in **JAVA/J2EE technologies** and overall around 21+ years in Information Technology and having working experience in

- Complete Software Development Life Cycle in Agile and Waterfall model.
- J2EE technologies including J2EE, Spring, Spring Boot, Cloud, Microservices, Struts, Hibernate, Web services, WebLogic Portals (102).
- Cloud technologies on Oracle Cloud (OCI).
- Telecom and BFSI domains in service and product-based companies.
- Around 4+ years on Visual Basic, ASP and BPO technologies.

Technical Skills:

JAVA, J2EE, Spring, Microservices, Spring Boot, Spring Batch, Spring MVC, Oracle Cloud, PCF, Docker, Kubernetes, Struts, EJB3, Hibernate, JSF, Web Services, WebLogic Portals, Hazelcast, Redis, AJAX, Angular, JMS, Kafka, MongoDB, TIBCO Enterprise Message Service (EMS), Apache ActiveMQ, RabbitMQ, AWS S3, JMeter, Apache Bench, JSP, Servlets, Applets, Swing, Mockito, Jenkins (CI/CD), ...

Environments:

- *App Servers:* Weblogic10, Oracle 9iAS, JBossAS.
- *Web Servers:* Apache Tomcat Server, TC Server.
- *Operating Systems:* Windows, Linux, and Unix.
- *Databases:* Oracle, SQL Server, MySQL, PostgreSQL, MongoDB.
- *Cloud:* Oracle Cloud (OCI) and Pivotal Cloud Foundry (PCF).

Work Experience:

Oracle India Pvt Ltd. (Apr'20 to till to date - Principal Software Engineer)

Product: Oracle Unity | Customer Data Platform (CDP).

- Responsible for technical design and driving the tech roadmap of API Platform.
- Design, develop, testing and executing microservices on different environments.
- Evaluation of tech, rapid prototyping and driving adoption across product (ArtilleryIO, APIARY).
- End to end integration with ALM, Jenkins, SonarQube and code quality verification.
- Worked cross-functionally with various teams, product management, QA/QE, ...
- Initiated and worked on SDLC excellence activities.
- Docker images, deploying and managing with Kubernetes on Oracle Cloud.
- Guided API and Developer Documentation activities for Developer Experience (DX).
- Provided technical guidance and mentoring engineers.
- <http://www.oracle.com/in/cx/customer-data-platform>
- Distributed Tracing Service (DTS) implementation using OCI-APM.
- API Monitoring using Telegraf, Prometheus and Grafana.
- Implemented a logging framework and integrated with Lumberjack.
- Implemented Chainsaw2 as a sidecar pattern in the application for the first time.
- Supporting and fixing production issues.

Mphasis Limited.

(Jan'14 to Apr'20 - Delivery Project Lead)

Projects: Amerivest & iRebal Applications.

- Led offshore development team and handled Sprint ceremonies for offshore team.
- Responsible for delivering the work from offshore and released many sprints successfully.
- Interacted with onshore client resources and business team.
- Improved overall application performance adopting Message Queues like TIBCO EMS, RabbitMQ and using in memory cache Hazelcast and file storage with AWS S3.
- Requirements gathering, analysis and application design, developed SPR tasks.
- Participated in code reviews and mentor to many senior and junior engineers.
- Handled various components like iRebalWeb, Analyzer, SOD, AGP Admin, ...

Bodhtree Consulting Limited.

(Oct'11 to Dec'13 - Senior System Analyst)

Products: Cisco ISE & NAC.

- As a Senior System Analyst involved in design and development of new features and enhancements for **Cisco** client products.
- Developed access control mechanism using the roles.
- Involved in bug fixes and minor enhancements across the product.
- Improved process in identifying patches, vulnerabilities, deployment, and notifications areas.
- Provided L3 support in development and bug fixes.
- <http://www.cisco.com/en/US/products/ps11640/index.html>
- <http://www.cisco.com/en/US/products/ps6128/index.html>

Convergys Information Management.

(Sep'10 to Sep'11 - Sr. Analyst Systems)

Project: Alltel Wireless.

- Designed and involved in developing workflows for Order Management (OM).
- Designed workflows using Process Definition Tool (PDT) and implemented with ActiveMQ.
- Successfully implemented Touchstone external interface
- Implemented eSecuritel batch processes.

Wipro Technologies.

(Jun'06 to Sep'10 - Technical Lead)

- As a Technical lead involved in designing and development activates for clients' projects.
- Worked on WebLogic Portals for **Verizon** client projects.
- Contributed to developing Verizon business portals, like SMB Portal, Channel Rebranding.
- Owned and involved in developing few modules like Professional Networking, Marketplace.
- Worked on Struts framework for **EPSON** client projects.
- Developed EPSON printer management tool and usage monitor system throughout Org.
- Involved in analyzing requirements, coding, code review, testing and leading a team.

StellarIP Solutions Pvt Ltd.

(Oct'04 to Jun'06 - Sr. Software Engineer)

Product: S2-Patch™ for Oracle Applications.

- Designed and developed a highly reliable patching tool for Oracle E-Business Suite.
- Improved DBA's productivity with auto patch analysis and deployments
- Worked on Struts Framework.
- Adopted and started using AJAX a new web technique.
- Designed UI and involved in development using AJAX, Swing Applets, JFreeCharts, Servlets.

ConcenTek Pvt Ltd.

(Dec'02 to Oct'04 - Executive-IT Services)

- Responsible for ensuring operation excellence by maintaining Divine Dialer suite for BPO ops.
- Designed and developed self-assessing tools for agents to retrospect their sales conversions.
- Self-assessing tools saved a lot of spending cost of Org and improved agent's performance.
- Slashed significant time spending on calls by agents and improved an overall Org revenue.

Today's Information Technology Pvt Ltd.

(Jan'2001 to Oct'02 - Software Engineer)

- As a Software Engineer involved in developing Transport Logistics systems using various Microsoft technologies and developed games using ActionScript and Flash animation.

Education:

- Master of Science (Computers) - Nagarjuna University.
- Certified Scrum Master
